

Load Pull Tuner Thermal Stabilizer

PRODUCT INFO

PRODUCT NAME:

TTS- Tuner Thermal Stabilizer

Size:

- Rack: 3.5"H x 19" W x 11.8" D
- Weight: 11 lbs

PRODUCT CATEGORY:

RF Engineering-Load Pull Accessory

RETAIL PRICE:

5,500- 9,500

KEY FEATURES

- ✓ **Extend Your Tuner Characterization**
Extend characterization of your tuner as much as 2 years.
- ✓ **Reduces Thermal Drift**
Maintains tuner elements at a constant temperature, minimizing environmental and seasonal changes
- ✓ **On Wafer Tuner Stability**
Stabilizes tuner temperature for on wafer stations during cold cycling
- ✓ **1 Year Warranty**
Guaranteed to be free from manufacturing defects for 1 year.

Thermally Stabilize Your Load Pull Tuner

Extend the characterization of your load pull tuners by adding a TMS Test Services thermal stabilizer. Our stabilizers are designed to maintain the temperature of your load pull mechanics to 98 degrees F. Thermal stability maintains tuner characterization thru seasonal or lab environmental changes. Critical for on wafer testing where tuners are exposed to thermal drift during cold cycling.

TMST load pull thermal stabilizer works with up to 3 tuners from a single 2 u rack high instrument.

The TTC heater is customized for your specific load pull tuner. Contact us today for more information at 800-342-8408
